Let's Make Learning Happen!

# Background

Our quality internship program has helped over 30 interns with the transition from the classroom to the real-world experience since 2017.

We allow for real client project involvement, learning the latest in Human Resource Management, Learning and Development, Business Development, and Personal Brand Enhancements.

We allow our students to develop knowledge about themselves and their abilities, goals, and career interests in a work setting while providing the opportunity to raise awareness of the world beyond campus exposure and the large variety of careers, disciplines, and environments in HRD.

# EdOpp's Values

Purpose. People. Processes. Performance
